

Birtley Exciter Exchange Program

EXCITER EXCHANGE PROGRAM ADVANTAGES:

- + Rebuild exciters of all major brands
- + Expert technicians
- + Quick turnaround time
- + Eliminate unscheduled downtime
- + One year warranty

Birtley Industrial Equipment Corporation is a growing leader in the development, manufacture, and service of coal processing equipment. Our rugged and reliable screens, centrifuges, and cyclones have been tested and proven for durability and carefully engineered for minimal maintenance.

In addition to manufacturing and production capabilities, Birtley also offers extensive exciter rebuild and repair services. Whether due to product failure, preventative maintenance, or a need (or

parts replacement, we can handle all your exciter needs. Furthermore, with an array of sizes in stock, Birtley's Exciter Exchange Program provides what you need, when you need it.

Our Exciter Exchange Program allows you to exchange your worn out trouble unit with a fully overhauled exciter. All Exciter Exchange Program units have been rebuilt by Birtley's expert technicians using new high quality pans and come with a one year warranty.
